A2.1 Global signals

Table A2-1 shows the global AXI signals. These signals are used by the AXI3 and AXI4 protocols.

Table A2-1 Global signals

Signal	Source	Description
ACLK	Clock source	Global clock signal. See *Clock* on page A3-36.
ARESETn	Reset source	Global reset signal, active LOW. See *Reset* on page A3-36.

All signals are sampled on the rising edge of the global clock.
